

## EVALUATION CT SCAN

Patient Identification Number <i>(as shown in the app)</i>		Date CT scan	
Radiologist			

---

1. Surgical abdominal drain

- No
- Yes; tip <2cm from pancreatic anastomosis or stump
- Yes; tip >2cm from pancreatic anastomosis or stump

---

2. Low-density peri-pancreatic fluid  
*(i.e. not hematoma)*

- No
- Yes, in direct contact to pancreatic anastomosis
- Yes, in direct contact to pancreatic stump
- Yes, but **not** in direct contact to anastomosis or stump

---

3. Dehiscence pancreatic anastomosis

- Not applicable, no pancreatic anastomosis
- Intact
- Partly dehiscent
- Entirely dehiscent

---

4. Suspected pancreatic leakage / fistula

- No
- Yes

---

5. Intra-abdominal gas

- No
- Yes; normal for postoperative phase
- Yes; too much for postoperative phase

---

6. Intra-abdominal fluid

- No
- Yes; normal for postoperative phase
- Yes; too much for postoperative phase

---

7. Other findings

- (suspected) hepaticojejunostomy leakage
- (suspected) gastrojejunostomy leakage
- (suspected) bleeding

---
